DETAILED ACTION

Current Status

1. This action is responsive to Applicants' amendment of 9 May 2006.

- 2. Receipt and entry of Applicants' amendment is acknowledged.
- 3. Claims 2-22 are under active consideration in the instant application.
- 4. Applicants have amended the claims to overcome the 112 and 101 rejections.

The finality of the Office Action dated on 3/27/06 has been withdrawn because applicants have not been given the opportunity to response to the 112 rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2-22 are indefinite because of the phrase "a process for the compound". It is not clear what process applicants are claiming. The examiner believes that the applicants intend to say "a process for employing the compound". Correction is required.

Claims 2-22 are indefinite because of the phrase "quaternary ammonium cation".

It is not clear which quaternary ammonium cation applicants are claiming. For

example imidazolium cation and pyridinium cation are quaternary ammonium cations.
